STAR-STUDDERD AFFAIR

At the launch of Rapchee OTT App

Gauhar Khan, Rahul Roy, Jasleen Matharu, and Kangana Sharma, among others attended the unveiling of Rapchee OTT App. Dharam Gupta sharing his vision behind building this OTT platform said, "My app is not flimsy or superfluous

with all the frills of big names attached. Here content is the king whether or not it has big faces. I have worked in this line for the longest time and I am seeing the shift from television to OTT platforms, which is why we planned to

venture in this space because this is the future. Also, this app is made for those production houses and people who have great scripts and shows but aren't being able to sell them to the big wigs."
