## What to Buy, Sell and Hold

### Hindustan Zinc

- **Reliance Securities** has a buy rating on **Hindustan Zinc** with a target price of ₹301. The brokerage said the company recently delivered the best ever quarterly performance primarily on account of record mined metal volume and strong zinc prices. It continues to remain optimistic on zinc prices, led by deficit due to closure of mining and smelting capacities along with depleting inventories. Hindustan Zinc rose 2.04% to ₹260.10 on Wednesday.
- **Ventura Securities** has a buy on **Suzlon Energy** with a target price of ₹44.5. The brokerage said its confidence in the sector has been bolstered given India's recent commitment to cut back on carbon emissions. It said Suzlon is also looking to monetise its assets and this gives confidence to the fact that the company is moving forward on its stated objective of debt reduction. Suzlon Energy fell 2.21% to ₹17.70 on Wednesday.
- **Axis Securities** has a buy on **KRBL** with a target price of ₹440. The brokerage believes changes in consumer preference towards branded Basmati rice in domestic market, Iran resuming purchases and entry into premium health foods segment augurs well for KRBL's earnings. KRBL fell 1.71% to ₹374.15 on Wednesday.
- **Prabhudas Lilladher** has a buy on **Tata Steel** with a target price of ₹590. The brokerage said the closure of pension scheme of ₹550m would improve the profitability and sustainability of UK operations. Tata Steel rose 1.85% higher at ₹519.90 on Wednesday.
