Provision for taxation during the year was Rs 5.40 crore.

Net profit marginally increased to Rs 105.81 crore from Rs 105.79 crore in the previous year.

**Industry Structure and Developments:**

The operations of Non Banking Financial Companies (NBFCs) are being regulated and supervised by Reserve Bank of India in terms of powers conferred under chapter III- B of Reserve Bank of India Act, 1934. The regulatory and supervisory framework for NBFCs have been continuously strengthened in order to ensure strong and healthy functioning, limiting the excessive risk taking practices protecting the interest of the deposit holders.

The NBFC sector in India has become very mature with reduced dependence on acceptance of public deposits as part of its overall funding. The NBFC sector is now represented by a mix of a few large companies with nationwide presence and a large number of small and medium sized companies with regional focus.

In recent years, NBFCs are witnessing strong competition in their traditional areas of retail lending from Banks and Financial Institutions. Banks, which have innate advantage of lower cost of funds, are taking an increasing share in retail financing and providing strong competition to NBFCs.

The Reserve Bank of India also intends towards moving to a phase of non- acceptance of public deposits by NBFCs over the years.

In this scenario, NBFCs are now under pressure to cut costs and to develop a focussed marketing approach on selected customer segments by offering more personalized services. The entry of strong NBFCs in insurance and banking have been some of the major developments in this sector.

**Business Review:**

RCL's operations continue to be mainly focused on the areas of funding of projects in the infrastructure sector, contributing to the country's overall economic growth and development. The investment

**DIRECTORS' REPORT - CONTD...**

portfolio of the Company is structured in a manner to realize the highest post tax returns on investments. As on 31st March, 2005, your company's investment in infrastructure projects stood at Rs 1,071 crore.

**Opportunities:**

With GDP growth forecast of 6 - 7% over the next few year, the Indian economy will continue to provide several attractive growth opportunities. The increased thrust on the infrastructure sector, including power, roads, ports, telecom and other urban infrastructure projects, will continue to provide excellent investment opportunities in the future.

In addition, the services sector which is growing at rapid pace and contributes substantially to GDP, will provide many new opportunities for the financial services industry in India.

**Challenges:**

The NBFC sector continues to face competitive pressures from the banking sector and financial institutions, due to their increased penetration in the consumer financing market, with comparatively low cost of funds at their disposal. The spreads in the lending business have also narrowed considerably, bringing risk-adjusted margins to generally unviable levels.

RCL's strong financial position, reflected by its low debt:equity ratio and adoption of prudent business strategies, have enabled it to consistently post satisfactory performance despite these difficult conditions.

**Outlook:**

The financial services sector is one of the key growth sectors of the economy. Globally, 5 of the top 20 Fortune 500 companies are financial services companies. 21% of total revenues and 27% of total profits of all Fortune 500 companies are generated by the financial services sector, the largest by any single sector.

RCL intends to actively pursue growth opportunities in the fast growing financial services sector in the country, to become a full service financial services company with activities encompassing, inter alia, asset management and mutual funds, life and general insurance, and other financial services.

**Risks and Concerns:**

RCL is exposed to specific risks that are particular to its businesses and the environment within which it operates, including interest rate volatility, economic cycle, market risk, and credit risk. RCL manages these risks by maintaining a conservative financial profile and by following prudent business and risk management practices.

**Adequacy of Internal Control:**

An extensive system of internal controls is practiced by RCL to ensure that all its assets are safeguarded and protected against loss from unauthorized use or disposition of assets and that the transactions are authorised, recorded and reported correctly.

The Audit Committee of Directors reviews the adequacy of internal control.

#### ACCOUNTING POLICIES

##### A. Basis of Preparation of Financial Statements

The financial statements have been prepared under the historical cost convention method in accordance with the generally accepted accounting principles and the provisions of the Companies Act, 1956, as adopted consistently by the Company.

##### B. Use of Estimates

The presentation of financial statements requires estimates and assumptions to be made that effect the reported amount of assets and liabilities on the date of financial statements and the reported amount of revenue and expenses during the reporting period. Difference between the actual results and estimates are recognised in the period in which the results are known / materialised.

##### C. Revenue Recognition

###### i) Lease Finance:

Income from leased assets is accounted for in the year in which lease rentals fall due, by applying the interest rate implicit in the lease to the net investment in the lease during the period.

Front-ended lease management / syndication fees are treated as income of the period in which they accrue.

###### ii) Income from Bill Discounting:

Income from bill discounting is net of rediscounting charges paid.

##### D. Fixed Assets

All Fixed Assets are stated at cost less accumulated depreciation after considering Lease Adjustment account. All costs including financing cost attributable to fixed assets till assets are ready for intended use are capitalised.

##### E. Assets given on Finance Lease

i) All assets given on finance lease on or before 31st March, 2001 are capitalised as Fixed Assets.

All assets given on finance lease on or after 1st April, 2001 are shown as receivables at an amount equal to net investment in the lease.

ii) Initial direct costs in respect of leases are expensed in the year in which such costs are incurred.

##### F. Depreciation

Depreciation is provided as under:

###### i) Assets for own use:

On Written Down Value method at the rates and in the manner prescribed in Schedule XIV to the Companies Act, 1956.

###### ii) Leased Assets:

On Straight Line Method at the rates and in the manner prescribed in Schedule XIV to the Companies Act, 1956.

##### G. Impairment of Assets

An asset is treated as impaired, when carrying cost of assets exceeds its recoverable amount. An impairment loss is charged to the Profit and Loss Account in the year in which an asset is identified as impaired. The impairment loss recognised in prior accounting periods is reversed if there has been a change in the estimate of the recoverable amount.

##### H. Preliminary and Share Issue Expenses

Preliminary and issue expenses are adjusted against the securities premium account.

##### I. Investments

##### L. Expenditure / Discount on Bond Issue

Expenses relating to issue of bonds and discount on the issue are amortised proportionately over the tenor of the bonds based on the implicit rate of return.

##### M. Assigned Liabilities and Discount on Assigned Liabilities

The assigned liabilities are accounted at discounted value. The difference between the assigned liability and the discounted value is charged to the Profit & Loss account proportionately on time period basis as discount on assigned liability.

##### N. Foreign Currency Transactions

(i) Transactions denominated in foreign currencies are normally recorded at the exchange rate prevailing at the time of the transaction.

(ii) Monetary items denominated in foreign currencies at the year end are restated at year end rates. In case of monetary items which are covered by forward exchange contracts, the difference between the year end rate and rate on the date of the contract is recognised as exchange difference and the premium paid on forward contracts has been recognised over the life of the contract.

##### O. Borrowing Costs

Borrowing costs, which are directly attributable to the acquisition/construction of fixed assets, till the time such assets are ready for intended use, are capitalised as part of the cost of the assets. Other borrowing costs are recognised as an expense in the year in which they are incurred.

##### P. Securities Lending
